

CPD EVENT RECORD - LEARNING WITH OTHERS

NEURODEVELOPMENTAL DISORDERS

with Darren Barnes-Heath

LIVE EVENT

18th February 2025

90
minutes

Summary

The interview discusses the role of primitive reflexes in neurodevelopmental disorders, particularly in children with conditions like autism, ADHD, and dyslexia. The speaker explained how retained primitive reflexes can impact sensory processing, motor control, and emotional regulation, and describes various assessment and treatment techniques he uses to address these underlying neurological factors.

NICE Guidelines: CG142 Autism spectrum disorder in adults, CG128 Autism spectrum disorder in under 19s
