

CPD EVENT RECORD - LEARNING WITH OTHERS

Paediatric Osteopathy - Concerns in Europe

with Dr Jerry Draper-Rodi

LIVE EVENT

2nd April 2025

90
minutes

Summary

This discussion looked at opposition in Europe towards osteopathic treatment of infants, particularly highlighting the limited and inconsistent nature of current evidence supporting its efficacy. The discussion challenged traditional reliance on anecdotal evidence, promoting evidence-based practice and professional accountability in paediatric osteopathy to ensure safe, informed, and ethically sound clinical care.

Evaluation, Reflection and Impact on Practice *(this part of the certificate is **not** automatically generated - it has been entered by the participant)*

Listening to this discussion deepened my understanding of current evidence and controversies surrounding paediatric osteopathy. I am now better equipped to communicate openly with parents about realistic outcomes, treatment risks, and evidence-based practice limitations. This awareness enhances my ability to deliver safer care.
