

CPD EVENT RECORD - LEARNING BY ONESELF

THE VAGUS NERVE

with Prof. Owen Epstein

RECORDING

90
minutes

Summary

This discussion covered the role of the vagus nerve in various physiological and medical conditions, including its connection to the gut-brain axis, chronic physical illnesses, mental health disorders, and autonomic nervous system regulation. The interviewee, a consultant gastroenterologist, explained the importance of the vagus nerve beyond just the digestive system and how it can be evaluated and potentially treated through various non-invasive techniques.

NICE Guidelines: IPG679 - Implanted vagus nerve stimulation for treatment-resistant depression, IPG50 - Vagus nerve stimulation for refractory epilepsy in children

Principles and Standards of Practice
