

# CPD EVENT RECORD

## VACCINE UPDATE

with Prof Nicolas Locker

**Recording:**  
*Learning  
by Oneself*

### Summary

This discussion addressed the current state of Covid-19 vaccine development. Herd immunity, the prevalence of side-effects, vaccine safety and the merits of vaccinating children were discussed. The difference between mRNA and protein sub-unit vaccines were explained, and concerns about effects on fertility and autoimmune conditions were dealt with.

**D** Professionalism

D1 D2 D3 D4 D5 D6  
D7 D8 D9 D10 D11 D12

Objective Activity: None  
Communication & Consent: No

### Evaluation, Reflection and Impact on Practice

Vaccine safety is a subject often raised by patients and I took part in this discussion because I felt the need to understand the latest scientific evidence surrounding the UK's vaccine programme. Although I am aware of conflicting opinions, I feel better informed myself and can now communicate the evidence better to patients in clinic.

### Confirmation

I confirm that this is an accurate reflection of my learning during this event.
