

CPD EVENT RECORD

PERSISTENT CONCUSSION SYNDROME

with Nicola Hunt MCSP

Recording:
*Learning
by Oneself*

This discussion and demonstration focused on identification of concussion, with emphasis on differentiation from whiplash, where there can be considerable overlap of signs and symptoms.
The potential for concussion to persist, and the need for expert assessment was made clear.
A thorough demonstration of testing for concussion was provided, incorporating the use of balance plates and eye-motion tracking headgear.
Where appropriate, less sophisticated means of assessment were also shown.
Rehabilitation techniques were also outlined.
