

CPD EVENT RECORD

PULMONARY REHABILITATION

with Kamaljit Saggu

Live Event:
*Learning
With Others*

This discussion covered the available rehabilitation services for patients with respiratory problems such as asthma and emphysema, although other conditions, including the consequences of Covid-19, would also benefit.

The standard programme lasts 12 weeks and is available through the NHS, but drop-out rates were said to be high. A number of reasons for this were proposed, including that it is free, so patients feel less motivated, and that it involves exercise, which might be a deterrent to those already in respiratory distress.

Chiropractic Code 2016

A Put the health interests of patients first

A1 A2 A3 A4 A5 A6 A7
