

CPD EVENT RECORD

OBSTRUCTIVE SLEEP APNOEA

with Dr Neil Stanley PhD

Live Event:
*Learning
With Others*

Obstructive sleep apnoea is a relatively common problem affecting both men and women, although accurate statistics are hard to obtain. The problem causes fatigue, which can be misdiagnosed as chronic fatigue syndrome, or might erroneously be attributed to hormonal changes. While it is more common in older, overweight individuals, it can also occur in young patients with no obvious predisposing factors. The speaker explained the signs and symptoms and outlined current treatment options.

Chiropractic Code 2016
