

# CPD EVENT RECORD

## FUNCTIONAL NEUROLOGY

with Darren Barnes-Heath

**Recording:**  
Learning  
by Oneself

This discussion included a detailed explanation of cerebral and somatic physiology, together with methods of assessment. It was emphasised that clinical assessment can be conducted without recourse to special equipment. The potential for spinal manipulation to affect neurological function was described and cognitive testing was explained.

Potential causes of concussion, consequences and physiological processes were outlined.

A practical demonstration was conducted, illustrating how special tests can be fine-tuned, and a number of simple interventions demonstrated.

### Chiropractic Code 2016

**A** Put the health interests of patients first

A1 A2 A3 A4 A5 A6 A7
