

CPD EVENT RECORD

COVID-19 and Knee Surgery

with Mr Ian McDermott

Recording:
*Learning
by Oneself*

Summary

This discussion covered 3 different types of knee condition, locked, septic and acute injury. Mr McDermott explained the diagnostic criteria and factors which might render them urgent in the eyes of the NHS. There were useful videos illustrating the conditions, and sufficient information was given for telephone triage where face-to-face consultations were not possible.

Evaluation, Reflection and Impact on Practice

On reflection, I feel better able to provide care for my knee patients, particularly where there is an urgent need for surgery. I can also use this information to inform my telehealth triage.

Confirmation

I confirm that this is an accurate reflection of my learning during this event.
