CRANIO-FASCIAL DYNAMICS

with Jon Howat D.C., D.I.C.S., F.I.C.S., F.C.C. (Cranio), F.C.C. (Paeds), F.E.U.C. (Craniotherapy), F.B.C.A

Recording:
Learning
by Oneself

Summary

This discussion covered in great depth the anatomical relationships of the various elements of the brain and skull, relating those features to the potential for injury. The implications for the delivery of babies, particularly where intervention was required were explained, and the possible link between different types of trauma to later disease was explored.
