

CPD EVENT RECORD

THE CROSSOVER EFFECT IN REHAB

with Dr Claire Minshull

Recording:
*Learning
by Oneself*

Evaluation, Reflection and Impact on Practice:

This discussion explained the effect whereby muscle in an injured limb can benefit from strength training on the opposite side. The extent of the benefit was outlined and the variation in effect between different muscle groups explained. Different strategies were explored to cater for different patient groups - athletes, general gym-users, and the more house-bound/elderly patients.
