

# CPD EVENT RECORD

## SPONDYLOLISTHESIS - A TREATMENT PROTOCOL

with Simeon Niel-Asher

**Recording:**  
Learning  
by Oneself

### Summary

This discussion covered classification, aetiology, signs and symptoms of spondylolistheses. The benefits of imagery were covered, as were possible differentials. Accepting the lack of robust research into effectiveness, the speaker outlined a trigger-point approach which had proved very successful with a very large number of patients in his own practice.

### Chiropractic Code 2016
