

CPD EVENT RECORD

SPONDYLOLISTHESIS - A TREATMENT PROTOCOL

with Simeon Niel-Asher

Recording:

Learning
by Oneself

Summary

This discussion covered classification, aetiology, signs and symptoms of spondylolistheses. The benefits of imagery were covered, as were possible differentials. Accepting the lack of robust research into effectiveness, the speaker outlined a trigger-point approach which had proved very successful with a very large number of patients in his own practice.
