

CPD EVENT RECORD

Movement as Treatment

with Joanne Elphinston

Recording:
*Learning
by Oneself*

Evaluation, Reflection and Impact on Practice:

In this discussion and demonstration, the speaker contrasted the utility of exercise and movement, as tools to aid rehabilitation. The value of functionally-based movement was clearly explained and illustrated through a case history. Demonstrations of a number of different therapeutic movements were given, together with ideas on how these could be modified for different problem areas of the body.
