CPD EVENT RECORD
SETTING PATIENTS UP FOR SUCCESS
with Ulrik Sandstrøm

Evaluation, Reflection and Impact on Practice

Summary

This discussion looked at ways to enhance patient outcomes, particularly through use of language and evidence-based patient-management techniques. Differentiation between those with internal and external locus of control was explained, and the importance of correct, tailored goal setting emphasised. The importance of establishing an effective rapport with patients, while not crossing professional bounaries was discussed.

Reflection

I attended this CPD because I was aware of the importance of non-physical elements of patient care and wanted to ensure that my treatments were as comprehensive as possible. The training will make a considerable contribution to improving patient outcomes.
