

# CPD EVENT RECORD

## ULTRASOUND DIAGNOSIS *with Chris Myers*

### ***Evaluation, Reflection and Impact on Practice:***

This discussion illustrated how ultrasound can be used to confirm a diagnosis, and how as a result it can lead to improved treatment and outcomes for patients. The limitations of US scanning were outlined, but its strengths over other imaging modalities were also highlighted. The degree of expertise needed to be able to interpret scans was made clear, and the limitations of some types of scanner discussed. Real case histories were used to help illustrate what was said.
